PRICING

The following are the factors that determine the price of your custom embroidered patch:

Size Add the length of two equal sides and divide by 2. Fractions less than 0.5" are rounded up. (Example: A patch 3 inches wide and 3.5 inches deep would be a total of 3.5 inches
 $3" + 3.5" = 6.5"$
 $6.5" / 2 = 3.25$
 round up = 3.5")

Color Up to 7 standard colors are possible; merrowed border & cloth background colors are not counted.

Percentage Of Embroidery You will need to estimate what part of the emblem will be covered by embroidery; 50%, 75% or 100%. Apart from logos and lettering, you can decide to use the cloth as a background, or fill it with embroidery.
